

ONBODY TEMPLATE

onbody.pdf

Guidance Notes:

- Artwork should be supplied as 300dpi, CMYK PDF
- Do NOT punch out centre hole - continue the design to the center
- Bleed on the outside edge of the disc is not required
- Colours saturation should not exceed 300%
- To ensure sharp edges black text is best set up as 100%k not a mix of CMYK
- Text should be a minimum of 6p
- All text should be converted to outlines
- Using less than 80% tint of a pantone should be avoided - if a lower tint is to be used it should be set as a separate pantone
- Minimum ink saturation per channel (C, M,Y or K) 14% - (this is not the combined saturation for CMY and K)

Please ensure that the template is not visible on top of your artwork

When saving your file please name it: (company name or your name)_ (job name)
